

# TOO MUCH GOLD FOR U.S.

Europeans See Great Wealth As Disadvantage

RESULT OF WAR LOANS

Foreign Countries Paying Back Borrowed Money

BY LORD SYDENHAM OF COMBE

LONDON — (By United Press) — To the average man it seems strange that the repayment of a loan should be the cause of anything but satisfaction to the recipient.

Certainly in small private transactions any other result is inconceivable, but in the larger sphere of international finance it would appear that different rules obtain.

Evidence is now accumulating that those who control the finances of the United States have reason to be perturbed by the prospect facing them in consequence of the amount of gold which has flowed, and is still flowing, into their country from the repayment of money borrowed during the war.

**A HUGE INCREASE**

It is estimated that in a comparatively short time the gold reserve of the United States has risen from 40 per cent to over double that figure. With this increase in the gold reserve there has been, of course, a commensurate fall in the value of the securities held. In other words, when the debt is redeemed, the U. S. is returned. But where's the interest? A good debtor reduces interest periodically and thus may be said to "earn money" when it is redeemed the old merely lies in the safe and gets nothing.

While America is thus accumulating gold the currencies of a number of European countries are debased because they have a backing of gold.

Here, then, we have one country reported to be apprehensive about its growing board of gold, and other countries suffering for lack of it.

**THE GOLD STANDARD**

In these circumstances, it is natural that people should inquire whether the gold standard is a share and a delusion—either the unprecedented distance of finances, due to the war, is about to reveal to us a new economic law which will exercise a profound influence on the financial systems of the world.

The drawbacks of the gold standard, which I cannot here discuss, have led some economists to propose other bases of currency. For example, Mr. Henry Ford short time ago published a series of articles, claiming that it was possible to dispense with gold and to create a currency

based solely on the credit of a State. Now it is conceivable that a small, self-contained country, independent of foreign trade, might thus subsist. Within its own boundaries such a country might be able to transact its business with paper, deriving values from the credit of its government without any backing of gold.

**A QUESTION**

But the general instability of democratic government is such that it is difficult to believe that a paper currency, resting on their credit alone, would be accepted in other countries. The natural resources of a State, the skill and diligence of its people and the soundness of its industries may justify a large amount of credit, but as there can be no certainty of a continuity of sound Government, such credit may be invalid.

For example, the credit of Tsarist Russia stood high. It regularly discharged its obligations even during the Crimean War, arrears of interest being subsequently paid; it maintained a large gold reserve. That reserve has gone and the credit of Bolshevik Russia, tho the natural resources of the country are unchanged, is practically nil.

At the outset of the Great War the exchange for a time was heavily against America. I have been told of Americans aboard who paid \$7 for a British paper pound note. In these circumstances America feared a large withdrawal of gold which might have created a dangerous panic. The stock exchanges were temporarily closed and drastic steps taken to save the situation.

**A REVERSAL**

Since then the exchanges have taken the reverse direction, with the result that a large part of the world's gold supply has accumulated in America. The effect of this concentration of gold in one country is naturally detrimental to the interests of other countries and is felt especially in Europe. Is this abnormal hoarding an advantage to America?

Insofar as this gold is stored in vaults, it can obviously be of no use to American trade and industries. It is as useless for commercial and industrial purposes as the hoarded silver of India. On the other hand, if it was added to the bank reserves it would provide additional credit which, if freely used in loans, would tend to increase prices all over America.

Whether this gold is held in few or many hands, we, in England, do not know. But it remains a great potential source of power in the future, even if it is at present of no value to the American people as a whole. Nevertheless, the high credit of American rests on other factors and it not sensibly affected by this hoarding of gold.

**AS STEADYING INFLUENCE**

In the event of a war, America would find her hoarded gold of more or less advantage, depending on the duration of the conflict and its cost. To hold an ample supply of gold at the beginning of a war as the basis of loans is a steady influence against economic disturbance.

But these are speculations and the only certain conclusion seems to be that there can be no natural return of the tide of gold to

Europe until the exchanges with America have undergone transformation.

On the other hand, it is possible that the holders of the hoards might, in their own interests, employ them in Europe and elsewhere—if ever Europe settles down to peace, stability and hard work.

C. F. Ashton, 1213 Lakewood av., explained to police Thursday morning that a hive of honey bees valued at \$100 was stolen from his premises sometime Wednesday night.

**POLICE SEARCH FOR 2 MISSING CHILDREN**

Police scoured the city Wednesday night for William Reeve, 17, and Mary Reeve, 16, who, according to information received from authorities at Findlay, who ran away from the home of their father, Theodore Reeve, and came to Lima Wednesday afternoon.

No trace of the missing children, who are thought to have come to Lima in a bakery truck, has been found. Police here have been asked to hold them and notify the juvenile authorities at Findlay, in case they are located.

**A. A. Stolly of this city, Edward Meraman and R. J. Dechelm of Celina and John Diehmer of Ft. Wayne, Ind., left Thursday for a three weeks' pleasure trip to Idaho.**

## It's Hard to Build Good Balloon Tires

Balloon tires are fine—but it's hard to build good balloon tires. They're fine because they practically eliminate jars and jolts to you and to your car. But they're hard to build because they are large, have thin sidewalls, and they are not pumped up hard. This means they are constantly bending and flexing, and this action is hard on the carcass of the tire.

But in Goodyear Tires this problem of construction is solved.

**Supertwist Cord is the answer.**

This new Cord is finer, tighter woven and will stretch further, and because of its wonderful elasticity, Goodyear Balloon Tires are made practical.

Supertwist is found only in Goodyear Balloon Tires—either to fit the new small wheels or without change—the wheels now on your car.

Strikingly different—charmingly individual—undeniably smart, and yet so practical, comfortable and economical! Women who have once learned how far away and ahead Nelly Don leads all other frocks for informal wear, will hail with pleasure this new showing of new ideas. Nelly Don, appreciating women's love for individual touches, has distinguished each frock with a bit of lace, a row of cunning buttons, a cluster of soft ruffles—that subtle "something more" which makes "Nelly Don" frocks such favorites—which distinguishes them from factory made house dresses and gives every frock the distinction of the production of an exclusive dressmaker.

When to all this real beauty and practical worth we add one opening price of \$1.95 to cover all these lovely materials and styles, no woman who prizes her appearance, whether at work or play, can afford to miss the occasion.

- No. 308—\$1.95 This frock of Kalburnie gingham in effective sport stripes designed to lend distinctive smartness to the hip line. Rose, green and blue, white cuffs, pockets and Peter Pan collar.
- No. 112—\$1.95 An extremely serviceable frock featuring surplice front, butterfly sleeves with flared cuff, sash at left hip, in blue or black with tiny white dot. Ric rac trimmed neck, pockets and cuffs.
- No. 253—\$1.95 This gay little model fashioned of fast color Windsor wide print in poppy red, Nelly Don blue and black, white bias binding trims neck line and sleeves. Clever pockets and smart bow at left hip.
- No. 324—\$1.95 That neat and clean charm which belongs to navy, grey or black percale dotted with a tiny white figure distinguishes this frock. The white pearl button trim is most effective.
- No. 332—\$1.95 Of pretty Kalburnie gingham in blue, red, black or tomato checked in white, white beach cloth tabs trim cuffs and left side, bands of white binding all edges contribute to its refined simplicity.

**BETTER WORLD IS SEEN**  
Cardinal Mercier Expresses Confidence in Future  
BELIEVES RECOVERY NEAR  
Churchman Who Defied Germany Is Optimistic

NEW YORK — (By Associated Press) — Cardinal Mercier, archbishop of Malines, Belgium, whose denunciation of Germany during the invasion of his country at the beginning of the war attracted universal attention, has written a letter to George L. Duval, of this city, in which he gives his hopes for the future of the world from the moral point of view.

The world at this hour, writes the eminent prelate, "is a great inviolable. All eyes are turned to the present, all lips anxiously expect a sign, a hope of recovery. Have you a remedy, the remedy? The physicians have no answer, or rather, they give answers all at once. The more the consultations and remedies multiply the more we realize that we are at a standstill."

Optimist or pessimist, which shall it be? From a hypothetical consideration of the situation in the present premises, there is something to justify and explain the pessimist, but, in my humble judgment, under the broader view which should be decisive, the optimist must prevail. He contends in spite of all, were my words to my fellow-citizens at the darkest hours of reconstruction. No matter how dark and how close to disaster and despair conditions may be, every one keeps his head erect, his heart steady, because discouragement has never begotten energy and energy alone breeds hope.

Of young men compatriots, of the people and representatives of other countries, you wish to help your brothers, the allies of yesterday, in a struggle we have made for years to attain peace? Then men of energy. Should some of them yield to the temptation of the majority, at all events, they will not.

VISALIA, Cal. — Archaeologists of the University of California are to be invited by W. H. Hart, a pioneer resident of Woodlake, Tulare-co to go with him back into the Eschom valley country in the high Sierras, to inspect a recent discovery which the mountaineer believes indicates that some unknown race preceded even the Indians in that country. Pending the visit of scientists, Hart is guarding his secret and has told few people of the location of his find.

Five small stones resembling diamonds were picked up. Two of these Hart had tested by a San Francisco jewel expert who says, pronounced them real diamonds of rare excellence. If they are real diamonds, Hart declares, they are the only ones ever found far back in the Sierra Nevada mountains, and he believes they must have been brought into that section by some age old civilization which frequented the region.

## U. S. WAR VET IS DYING IN JAIL

French Refuse Amnesty To 19 Month Prisoner

### FRIENDS ADMIT DEFEAT

Soldier Sentenced for Barn Fire After Quarrel

PARIS — (By United Press) — During this period of amnesty for French political prisoners and others convicted of flagrant crimes, American workers are forced to admit failure in securing release of John L. Avotte of Chaguan, Mich. A war veteran who has been buried for 19 months in solitary confinement after conviction on a charge of burning the barn of his father-in-law, a wealthy French lord, of Chalon-sur-Saone. Avotte was sentenced to five years, and investigators report it is most unlikely that any action to free him will be taken by French authorities before he has served half of that time.

Avotte's friends cannot see him and he is not allowed to receive or send letters. It is reported that Avotte is broken in health from appalling conditions of his prison life and it is feared he will never come out alive.

While justice is relentless with Avotte, several prisoners guilty of traffic with the enemy and other charges of treason have been released. In this list is Cottin, the man who shot Premier Clemenceau in 1919. Cottin was originally sentenced to be hanged, and the sentence changed to 20 years in prison. He has been released on the claim of ill health. Others in the amnesty are sun notoriety offenders as Morand, Chauvin Landau and Golosky.

Avotte's guilt has always been questioned by social workers and officials who have studied the case. He had quarreled with his father-in-law and left the family home. That night the barn burned down.

Avotte was arrested at the home of a neighbor by two gendarmes, spoke no English and he spoke no French. The chief evidence against him was an alleged confession secured by the gendarmes. Avotte always insisted that what he tried to tell them was that his father-in-law had accused him for spite, whereas the gendarmes had said he had committed the act for spite. He was tried at Chalon-sur-Saone, where the father-in-law had great influence and was unable to follow the proceedings because of the incompetency of the interpreter.

Avotte is regarded as a major crime in France, and when the appeal was heard the sentence was ordered to stand because lawyers failed to show where points of law had been misinterpreted. The American Legion and American Aid society have been working hard to gain the ex-soldier's release. The American Government cannot very well appeal to the French president for amnesty because, it is pointed out, such a procedure is contrary to international diplomacy. Secretary of States Hughes, during his recent visit, made inquiries about the case and such advances as possible in his status here as a private citizen, but nothing has been done and the case now looks hopeless.

### LOAN RENEWED

PARIS — A six months loan of \$100,000,000 made by J. P. ### BIG ULCER ALL HEALED

Now She Can Walk "I'm Happy," Says Peterson

"Here is another letter that makes me happy," says Peterson. "One that I would rather have than a thousand dollars."

Money isn't everything in this world. There is many a big-hearted rich man who would give all he has in order to be able to produce a "P. M." with such mighty healing power as Peterson's Ointment.

Read this letter by Mrs. Albert Southcott. It seems like a miracle but it is true every word of it.

"Is it any wonder I am happy?" Dear Sir:

I was a sufferer from an old running sore and ulcer. I had tried just about everything without any relief from pain. A friend told me of your wonderful ointment and the first box took away the pain that had not left me before in years, and after using just five dollars worth I am cured. The ulcer was a inches by six inches. It is all healed and I can walk. Never never will I be without Peterson's Ointment.

You may use this to recommend your ointment if you wish. I cannot say enough to praise it. Yours truly, Mrs. Albert Southcott, Lyndaville, N. Y. Price adv.

## HIS JOB BIGGER THAN A KING'S--

SEYMOUR PARKER GILBERT JR.

### Reparations Boss Is Only 31. Yet Has World-Wide Responsibility

BY CHARLES P. STEWART  
WASHINGTON — (Special) — One of the biggest jobs in all this world has fallen to the lot of a young man of 31.

It is a job far more important even than a president's or king's—temporarily, at least. On his handling the fate of nations hangs.

The job is agent general for reparations payments under the Dawes plan, and the man is Seymour Parker Gilbert Jr., of New York.

But the magnitude of his task in putting war-torn Europe on its feet again doesn't frighten him in the slightest. For Gilbert has been doing big things since 1918, when he was called out of a law office to become a member of the war loan staff. At 25 he was directing all United States Liberty Bond sales.

Two years later he was elevated to the post of assistant secretary of the treasury, then to a different political path than the administration he was serving.

When the Republicans came in, he held over despite opposition from politicians. And then there a special act of congress, he was elevated to the newly created post of under secretary. That gave him authority second only to the secretary.

Until his resignation two years later to return to his old legal practice, he handled virtually all the government's public debt problems, including the tangled European loans.

So it is no wonder he has been called upon to put the experts' report in operation.

It will be his duty to receive the enormous sums Germany is due to pay in war damages and transfer them to the various allied claimants.

This may look simple, but the moving vast amounts of money from country to country always tends to meet international exchange and the exchange fluctuations of most post-war years have had much to do with the complete disorganization of the world's trade since the armistice.

Gilbert will have to devise means of managing these transfers at such times and in such ways as to avoid violent exchange fluctuations. When it is considered that the transfers will be exceedingly complicated and that they will run high into the billions, it becomes evident that this

task comes about as near to an impossibility as ever was turned over to a human being.

Gilbert must be a super-diplomat as well as a super-financier. It is more than a matter of money issues of future peace and war hanging upon the way he carries out his work.

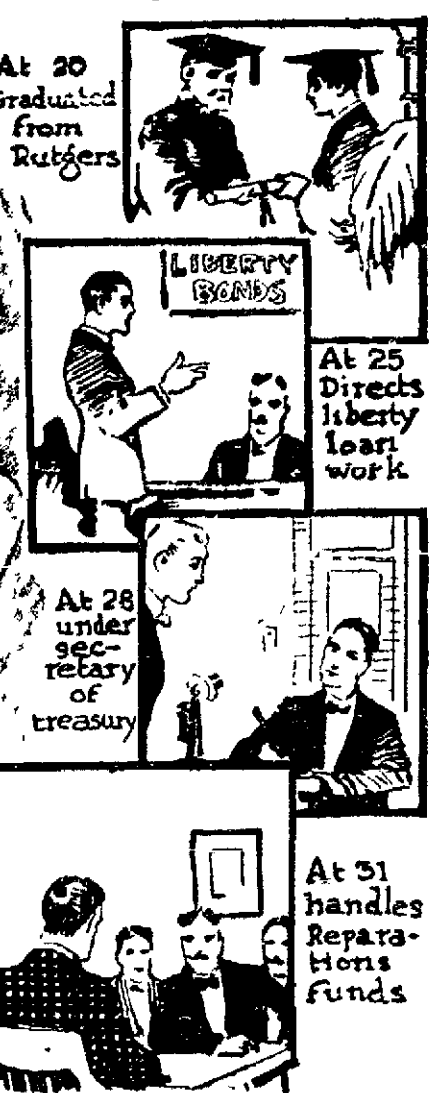

He accepted the post without salary stipulations. But it is understood he will receive \$7000 a year, with considerable generous allowances for expenses.

Gilbert graduated from Rutgers College when he was 20. He completed his law studies at Harvard.

**LOOT RECOVERED** — Detective agency operatives and police at work for ten days on the theft of \$12,000 in diamonds, jewels and heirlooms from the home of D. M. Weir, vice president of the Western Steel Co., announced today that every article of the loot has been recovered.

William Harris, 24, former chauffeur for the Weir family, is in jail charged with the robbery.

## OTTAWA HOST TO EASTERN STAR

District Convention Is Held in Putnam-co Thursday

OTTAWA — Ottawa was the meeting place for members of the Order of Eastern Star of the Eighth district, who assembled here for their convention.

Delegates came on the last train line and by motor cars. Trinity chapter at Lima sent a delegation of more than 50 the trip being made in a special car over the Lima-Toledo railroad.

Putnam chapter of which Mrs. G. H. Williams is worthy matron entertained visiting delegates at dinner in the dining-rooms of Masonic temple, at noon.

A special degree team, composed of worthy matrons of each chapter represented at the convention, exemplified the work at the afternoon session when a large class of candidates were initiated. Visiting delegates were to return to their homes late in the evening.

The district is composed of Allen Putnam Hancock, Van Wert and Paulding chapters. The convention was held at the Putnam chapter, which was presided over by the district, Mrs. G. H. Williams of Ottawa, secretary.

**RUMANIA PRESENTS DEAF EAR TO STRONG PROTEST ON NEW MINING MEASURE**

BUCHAREST — Despite the mining legislation, which has elicited the protests of the American British, French, Dutch and Belgian ministers on the ground that it is confiscatory, V. Bratiano, minister of finance, has made the following statement on the attitude of his government toward foreign capital.

"I have never offered obstacles to the entrance of foreign capital into Rumania, but I have insisted that it must operate on conditions compatible with the economic independence of the country."

Foreign capital is welcome in Rumania. But we do not wish to see our own capital shut out by foreign inventions. Foreign enterprise that have no regard for our forces of cooperation and which desire to utilize our natural resources as those of Turkey were utilized before the war, cannot find a favorable field for their activities in Rumania.

Experience has shown that only by reasonable participation of Rumanian capital can our natural resources be soundly developed. Such participation is the object of the mining legislation which the government is putting through parliament.

Mrs. Mary La Rocca of Omaha, Neb., is a guest at the Hotel Arbonne this week.

## Blue Skies Of Hawaii Call To All Young Men

How would it seem to winter in Hawaii where skies are blue and soft breezes blow?

Any young man in Lima can have a trip to the paradise of the Pacific, provided he is willing to go, is physically fit and possesses ambition and intelligence.

All that is necessary is to enlist in the U. S. army, which is filling up the garrisons in the Hawaiian island to full strength.

Corporal Clarence Tyree, in charge of recruiting in Lima, has issued orders to call a limited number of men for the islands. Soldiers enlisted will have their choice of serving with artillery or infantry.

The U. S. Marine Corps, which recently reopened its recruiting station here under charge of Sergeant Joseph Balla, will send men who enlist anywhere in the world where marines are stationed.

Just at present there is a chance to see action in China, where marines have been landed to protect American residents. Both the army and marine stations are located in the janitor's office at the court house at present.

## TABACCO SPOILS TASTE FOR FAMOUS OLD WINES

STRASBURG — Thirsty Americans who visit a famous old-fashioned wine restaurant in this city, which has a cellar that is known to connoisseurs all over Europe, are frequently surprised at not being able to obtain vintages which had been recommended to them by friends. The proprietor is an artist in blending food and wines and will not serve his choice wines to persons who order cocktails and begin smoking before their wines are served.

He insists that the cocktail and all other mixed drinks are a nuisance which should be confined to restaurants and bars, which do not specialize in fine wines and will not waste his precious cellar on men and women who spoil their taste for delicate wine by mixing tobacco up with their dinner.

## PHONE REPAIRS TO BE MADE

Farmers' Mutual Company To Improve Ottawa Lines

OTTAWA — Repairs approximating \$6,000 will be expended upon the lines of the Farmers' Mutual Telephone Co. in Ottawa, according to an announcement made Wednesday by Joseph L. Bricker, secretary.

The repair program followed a meeting of the stockholders held Tuesday night at the court house, when it was decided not only to comply with the recent order of the Public Utilities Commission, demanding improvements where necessary, but to extend the improvements from one side of town to the other.

Two new leads will be strung and it is expected this will be able to care for patrons who shall desire admission and installation of telephones for some years to come.

The improvement will do away with poor service and bad condition of the wires in the heart of town and which was complained of by the public utilities in the order.

By taking on a large number of new subscribers, it is estimated that it will not be necessary to make a special levy upon each member and that the entire amount of repairs can be taken care of in this way.

If required Bricker said, a small assessment may be levied against each present member to take care of the outlay. However the assessment would be very small, he concluded.

## TRAFFIC SIGNAL LIGHT IS TAKEN OUT BY CITY

The traffic signal light at Main and High-sts has been removed by the city after several weeks of experiment in which the light did not meet requirements for speedy movement of traffic.

Officials are placing a mushroom light between the car tracks and are contemplating the installation of a light similar to the one in use at Market and Elizabeth-sts, claiming that it is the best tried out so far.

Mrs. H. H. Hoover and daughter Mrs. Eleanor Moore, of New York City, formerly of Lima, are visiting friends and relatives in Lima this week.

## OHIO MUNICIPAL BODY TO HOLD SPECIAL MEET.

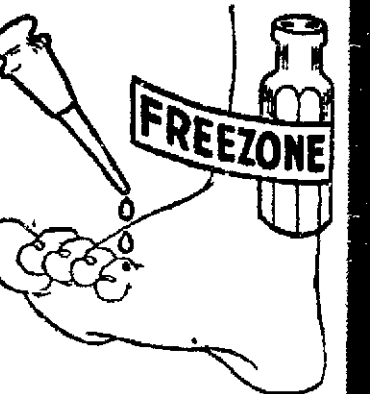

Meeting on Nov. 19 in Columbus of the Ohio Municipal League has been called by City Manager C. A. Bingham, president of the league, for the purpose of introducing a bill to the state legislature toward the collection of fees from each city for operation of the league.

The proposed bill as advocated by Mayor Charles C. Townes, of Cleveland, who was in conference Thursday with Manager Bingham at the city hall, provides a fund for the league and will benefit each city in that the league will serve as an information bureau on city affairs.

Mrs. Frank Heady and daughter Iris and Edith, of Toledo have returned after spending a week at the A. B. Slyh home on N. Perry-st. and at the Ida Tussing home on E. Elm-st.

### \$600,000 RAISED FOR RELIEF OF TORNADO VICTIMS AT LORAIN

LORAIN—Governor Donahey's Ohio relief commission was released from further responsibility of soliciting for Lorain relief in a resolution passed by the Lorain rehabilitation committee today following a report made to them by Fred Croxton, a member of the state commission, that approximately \$600,000 had been pledged and paid in for local relief work. The committee's resolution follows:

"That inasmuch as the Ohio relief commission has received in cash \$449,498.65 and has subscriptions when collected that will aggregate \$600,000, it is the sense of the Lorain rehabilitation committee that the governor and his committee will, when the collections are made, have completed their undertaking and fulfilled their promises and are relieved from responsibility of further solicitation and that this committee approves and appreciates the efforts and services of the governor and the state commission on behalf of the people of Lorain."

### TRACTOR VICTIM BURIAL WILL BE FRIDAY MORNING

Funeral services for Charles Joseph, 24, farmer, residing on the Ohio highway, seven miles north of Lima, who was instantly killed Wednesday when he was run over by a tractor, will be held Friday at 10 a. m. at Pleasant View church. Burial will be in the church cemetery. The accident is thought to have occurred when Joseph attempted to crank the tractor while it was in second gear. Before he could escape, the machine ran over him, breaking his back and neck. His body was found by his mother about two hours later.

### GAIN IS SHOWN AT LIBRARY

Trained Librarian For South High School Needed

At the regular monthly meeting of the library board Wednesday evening it was decided to engage a trained librarian to give full time service to the new school and community library which will be opened in the South Side High school. This branch will be administered as a part of the public library system.

A six hundred dollar book order was approved, a part of which will be assigned to the South Side Library.

Circulation for the month was reported at 6,584, a gain of 1,534 over last month. Between four and five hundred people used the reading rooms during this time and 684 books were repaired.

There were 13 different displays of current interest in the library during the month, while 253 borrowers registered. The library now has 16,337 volumes.

### 15,000 PERSONS VISIT DELPHOS ON WEDNESDAY AT COUNTY STREET FAIR

DELPHOS—The second big day of the Delphos and Tri-co street fair in this city followed the program of the Friday fair with about a hitch, and the indications point that this event this year is one of the biggest and best ever held in Delphos, according to Harry Lutz, president of the board. Judging in all the departments was begun Wednesday morning. The displays and exhibits are of the best in the state, as the assertion of many of the officials.

Handicrafts were a hit in the city and day. Both the Delphos and Tri-co fairs were a success. It is said that more than 15,000 people attended the fair here Wednesday night, and preparations are being made for a larger attendance Thursday night.

Activity in real estate is still on the up turn, according to Glen I. Walker, county recorder. More than 70 instruments were filed in his office Wednesday, of which number 20 percent were deeds. The fees totaled \$31.85.

### FUNERAL HELD

# GIANTS' ARK RESTS PEACEFULLY ON COOGAN'S BLUFF

## Play Town Modern Version Of A Roman Holiday At Boyle's Thirty Acres America Begins Again

NEW YORK — (By Associated Press) — The waters of the flood have receded and the Giants' ark rests peacefully upon the topmost hill of the National League.

Giant rosters, out on deck, predict fair sailing for the rest of the season.

But as the Harlem falls the Potomac rises and threatens to flood Washington off the dry dock of capital for the greater part of four seasons by the world champion Yankees.

A dove bearing a double branch of victory came to John McGraw Wednesday and before the day was over the National League champions had strengthened their position in first place to one full game and the Braves were drowned under 2 1/2 to 1 and 8 to 6 waterfalls.

The Giant total in the first contest established a major league record for the season. In the first game Frank Frisch got six consecutive hits and narrowly escaped tying the seven straight record made by Wilbert Robinson in 1894. Emil Muesel celebrated his return from the bench with five hits.

Brooklyn sailed smoothly as Erhardt won his fifth straight game, allowing Philadelphia only five hits in the five to one Robin victory. But the double win of the Giants permitted them to draw another half game away from the Dodgers.

**HABE ADAMS HELPS**  
The veteran Babe Adams repaired the broken down of the Pirates ship and steered it safely from the turbulent waters of the Mississippi with a 3 to 1 victory after allowing the Cards only five hits. The Reds hammered Jacobs and Koen in the first inning for all of their runs in a 6 to 3 win over Chicago. Donohue pitched well.

**YANKS REST IN BOSTON**  
Rain continued to fall in Boston, keeping the Yankees idle but keeping the Red Sox busy in a storm at Philadelphia. The league leaders retained their advantage of one and one half games over New York but sprang a leak which resulted in the loss of the first game 2 to 1. Heale won at the pumps by Marberry won the second, 6 to 5, after Marberry weakened in the sixth and left the winning run on base. Gray puzzled the Senators in the first.

Detroit's winning streak of seven games was interrupted by the White Sox who slammed five pitchers for 19 hits and a 12 to 3 victory. Thurston held the Tigers afloat but freely.

St. Louis and Cleveland were not scheduled.

**Mt. Union Will Miss Mackey**

**ALLIANCE, O.** — (By Associated Press) — When Mt. Union College's pickup players, sailing for their first practice Sept. 15, Head Coach John A. Ghorz will have virtually a veteran team from last year to build this year's squad around, but he will be taxed to find a capable substitute to replace Mackey, 1923 all-Ohio quarterback, who was graduated last spring.

Mt. Union's schedule calls for many big games with Ohio Conference representatives and this year's attendance is expected to surpass all records. Nine games are on the lineup.

The Armstrong brothers of Youngstown, who play tackle and half back, have sent word that they will be on hand Sept. 15, as has Wilcoxon, Alliance, halfback; Bruker, East Liverpool, fullback; Harvey, East Palestine, end; and Feidler, Hubbard, tackle.

Edwards of Ohio Wesleyan and Detrick, former Wittenberg star, are assistant coaches.

Mt. Union's schedule for Sept. 27—Slippery Rock, Norwalk, Oct. 1—Heidelberg, Oct. 11—Miami at Oxford, Oct. 18—Case, Oct. 25—Akron (Homecoming), Nov. 1—Kenyon, Nov. 8—Hiram at Hiram, Nov. 15—Wittenberg, Nov. 27—Wooster.

### THE BLACK PANTHER

### Angola Plays Here Next Sunday

Angola having another postponed game with Lima will play it off at the Murphy's lot, Sunday afternoon. The Indiana team is in second place by a small margin after its defeat by Lima Sunday.

The game Sunday will decide the pennant winner of the Ohio-Indiana race. If Angola can win Lima will drop to second place, and it is certain that Angola will do the utmost to finish on top.

Because of the suspension of the rule regarding the addition of new players during the last games of the season, Manager Halloran has signed Joe Longnecker, who played a prominent part in the Western league this season. He is a hard hitter and a clever fielder. He will play short.

Schaefer, leading batter of the Three Eye league, who is well and favorably known for the prominent part he has played with the local team in the past, will also be in the lineup. This should give the local team an added strength both in offense and defense.

Int the Angola plans are not known. Manager Somerville has stated that he has a wonder to pit against the local team and it would not be surprising if he brought several league players with him to help him win this most important game of the season.

There is one thing sure, Katz and Westaby will be on the mound for the respective teams, and these same flingers pitched the last eight innings of last Sunday's game without being scored on.

The rivalry between Lima, Bryan and Angola is at fever heat. Bryan will most likely play in Lima Sunday, Sept. 21. They are right on the shoulders of both Angola and the local team, and they believe they can come out on top in a series of games after the regular season is over. This is being arranged now. Bryan is strengthening their team and to begin with have signed Dickie, the leading hitter of the league to join them in this post season series. Kline is going back again and Lima will see more of this great pitcher before the end of the season.

The whole endeavor of the local team to win this pennant will be commensurate or lost with this game Sunday. These teams could play again and again in this regular schedule, and whoever wins will retain the lead to the end of the season and that means pennant and Spaulding cup.

**SQUARED CIRCLE**  
NEW YORK — Mike Battierino, Raymont, N. J., junior lightweight, won a ten round, division from Tony Vaccarello, New York, Jess Lombardo, Panama (afterward stopped), Frankie Monroe, California in the seventh round.

**COLUMBUS** — Tiger Flowers, Atlanta negro middleweight, will meet Jamaica Kid, of New York, in a 19 round bout here next Monday.

**WATCHING THE SCORE BOARD**  
YESTERDAY'S HERO — IN the first round of the basketball game between the Mount Union and Case, the Mount Union players, who were leading 15 to 10, were defeated by the Case players, who won 22 to 15.

At Ohio State University, the only Western Conference school in Ohio, the advance football ticket sale already has reached huge proportions. A capacity crowd of 75,000 is expected to witness the Michigan-Ohio State games at Columbus on November 15.

## THIS WOMAN RELIEVED FROM SUFFERING

By Lydia E. Firkham's Vegetable Compound. A Remarkable Story

Dover, N. J. — I, a very woman, would like to tell you a true story of how I was relieved from suffering. I had been suffering for many years with indigestion, gas, and constipation. I had tried many remedies, but nothing helped. One day I was over to my neighbor's house and she told me about Lydia E. Firkham's Vegetable Compound. So I went to the store on my way home and got a bottle, and took the first dose. I have been taking it ever since, and you can hardly believe how different I feel. I had just wanted to be a good mother, and when I started to brush up I would give out in about ten minutes. So you know how badly I felt. I used to go to bed at midnight and get up at 4 o'clock. Now I can work all day and stay up until eleven, and feel all right all the time. My husband, who I don't love, but I want to work for him. I have a good many of my friends, and I have been able to do without the Vegetable Compound. Mrs. Lydia E. Firkham, 219 Cecil St., Dover, Delaware.

for the hot days is in the crisp, flavory oven-baked shreds of whole wheat—and so easy to serve. Pour milk or cream over the Biscuit, then top it with berries, peaches or other fruits. A light nourishing diet for the summer that puts you on your toes for work or play. Better than starchy potatoes or greasy meats. Two Biscuits with milk make a nourishing meal for any time of the day and cost but a few cents.

**Ray-Glo**  
The Perfect Gas Fire

PERHAPS it is a sudden change in the weather or the wind coming from the wrong direction that makes the home so cold. No matter what the reason, a Ray-Glo with its radiant heat will warm you.

There is no delay. Radiant heat travels at the same speed as light. Just as the room is flooded with light the moment the switch is turned, so are you bathed in warmth the moment the Ray-Glo is lighted.

From a Ray-Glo the heat comes straight out into the room and travels clear across the room, warming any person or object instantly. It warms first that part of the room in which you live.

The Ray-Glo is always ready no matter what the weather conditions. Come in and see our designs and finishes.
